Other information:

You and your friends will be most impressed by this 40 square meter (431 sq. ft) pool, surrounded by olive, lemon, orange, fig, pomegranate and tangerine trees as it blends into the Adriatic Sea.

The pool has salt water chlorination which does not dry out your skin or leave it with a whitish residual (chlorine flaking). You will notice there is no irritation to the epidermis or eyes.

Instead, your hair will retain its natural oils and your body will feel smooth, refreshed, and revitalized.

Next to the pool entry stairs, there is hydro-massage bench to help you relieve your tired and sore muscles.

Only few steps down from the parking lot there is the newly built 160 square meters (1723 sq.ft) children’s playground. Get ready to see your kids eyes light up in delight when they see the swings, slide, ladders and see-saw waiting on them in the shadow of tall pine trees.
